

GuideWindowManager.ShowArtist
LinkButtonClick

GuideWindowManager.ShowShowpiece
LinkButtonClick

DecoratorManager.AddDecorator

```
graph LR; A[GuideWindowManager.ShowArtist LinkButtonClick] --> C[DecoratorManager.AddDecorator]; B[GuideWindowManager.ShowShowpiece LinkButtonClick] --> C;
```

The diagram illustrates a callout mechanism. On the left, there are two white rectangular boxes with black borders. The top box contains the text "GuideWindowManager.ShowArtist" and "LinkButtonClick" on two lines. The bottom box contains "GuideWindowManager.ShowShowpiece" and "LinkButtonClick" on two lines. On the right, there is a gray rectangular box with a black border containing the text "DecoratorManager.AddDecorator". Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both methods are associated with the "DecoratorManager.AddDecorator" operation.
